

# Nutrilivol Forte<sup>®</sup>

Unrivalled Combination of Natural & Synthetic Liver Stimulants

## Ingredients

Allicin-an active organosulfur compound of Garlic, Choline Chloride, Liver extract, Yeast extract Vit B1, B12, D-Panthenol, DL Methionine, L-Lysine, Manganese, Zinc, Niacinamide, Inositol & Natural Complex polysaccharides

Allicin is responsible for the medicinal properties associated with the Garlic, but It is highly unstable compound. After crushing the garlic, allicin forms immediately but within 15-20 min it gets destroyed completely. So many times birds wont be able to get benefits of raw garlic feeding. With Nutridians extra-stable (ES) technology the Allicin is available to birds.

## Benefits

- ★ Allicin & Natural complex polysaccharides boosts immunity, improves appetite, ensures gut health, flavours feed, helps to reduce ammonia odour.
- ★ Allicin has antibacterial & antiviral properties. It helps to reduce abdominal fat.
- ★ Protect liver from toxic effects.
- ★ Treats anorexia and hepatic disorders.
- ★ Helps to control fatty liver condition.
- ★ Immuno-modulatory effects & prevents stress on post-antibiotic therapy.

Presentation  
**25 KG**

## Inclusion Rate

Broiler Prestarter / Starter / Layer chicks :  
500 gm/ton of feed

Broiler Finisher / Layer :  
250 gm/ton of feed

Breeders : 500 gm/ton of feed  
throughout or  
as recommended by Poultry Nutritionist
