

# VITAFAST<sup>®</sup>

## Vitamin E, Selenium & Biotin

### The Next Generation Immunity Booster

#### Composition

Each 1 kg contains :

Vitamin E.....	50%
Selenium.....	400 ppm
Biotin.....	200 mg

#### Benefits

- ▶▶ Vitamin E enhances specific humoral and cell mediated immune response as well as native resistance to disease by immuno-stimulatory effect
- ▶▶ Vitamin E works as free radical scavenger
- ▶▶ Biotin deficiency leads to improper growth and FCR, disturbed and broken feathering, dermatitis and leg and beak deformities
- ▶▶ Selenium enhances primary immune response
- ▶▶ Vitamin E and Se play a role in protecting against oxidative damages
- ▶▶ Selenium destroys peroxides formed before they can damage the cell

#### Usage

- Layer/Broiler : Mix 50-100 g per ton of feed.
- Breeder : Mix 100-200 g per ton of feed.

#### Presentation : 1 & 5 kg
